

IMLPR Homework #7

In Chapter 6,

- Implement the function of **MnistConv.m** and use it to learn the MNIST training datasets.
- Test the MNIST test datasets for inferencing using **TestMnistConv.m**
- Get accuracy of the results
- Use **PlotFeatures.m** to examine the feature maps.
- Discuss the inference results by creating a confusion matrix for the 10 classes in terms of test image numbers and percent (%).
